

Set Folder

A compact, easy to use folding unit increases the versatility of the DocuMail inserting system. Together with the Plockmatic 49 SheetFeeder, single sheets or groups of documents can be nest folded to fit into C5-envelopes. The capability of folding several sheets with minimum adjustments and with a low noise level makes the unit unique in its kind.

Plockmatic 51 SetFold

PLOCKMATIC - YOUR PARTNER IN DOCUMENT FINISHING PRODUCTS

Plockmatic 51 SetFolder

The Plockmatic 51 set folder is the latest addition to the DocuMail system. The set folder is the logical extension to the Plockmatic 49 SheetFeeder, allowing you to fold single sheets or complete sets of pages, thus improving flexibility and reducing postage costs. Thanks to innovative technology the Plockmatic 51 SetFolder is extremely easy to set up and use.

A typical system configuration with a PL49 SheetFeed, PL51 SetFold and the PL45 DocuMail inserter. Groups are assembled in the PL 49, either by OMR or by presettable counter. The complete groups are nest folded by PL51 and subsequently inserted and sealed by the PL45 inserter.

Easy changeover between Folding and Bypass, just by turning a lever. The fold position is set and finetuned with the knob.
